# MAPS SYSTEM

MARYLAND TRANSIT ADMINISTRATION

Dear Friends:  
Thank you for your interest in Maryland and our award-winning public transportation system operated by the Maryland Transit Administration (MTA). With Local Bus, Commuter Bus, Light Rail, Metro Subway, MARC Train and Mobility/Paratransit options, the MTA can quickly and affordably transport you throughout the Baltimore region and Central Maryland.

You are holding one of the best resources to help you get around our area. The MTA System Maps Guide is a clear example of our focus on delivering quality customer service to the hundreds of thousands of people who use our system each day. It also represents our more comprehensive effort now underway to improve the effectiveness and efficiency of our overall transit network.

The MTA System Maps Guide is packed with important information on MTA fares, riding policies, how-to-ride instructions, safety and security advisories, places of interest, useful telephone numbers, and MTA transportation programs.

The various transit maps inside portray colorful, easy-to-follow routes where the MTA travels, where bus, light rail and heavy rail systems connect and the system's relationship with neighboring transit systems such as Amtrak and Washington, DC's Metrorail System.

Whether for work, school or recreation, we hope you refer to this MTA System Maps Guide and get onboard. We thank you for riding the MTA.

Martin O'Malley, Governor  
Anthony G. Brown, Lt. Governor

The MTA System Maps Guide features the most current route information available at the time of publication. Please refer to information contained in MTA timetables for the most up-to-date schedules and maps.
